

SpacePole Payment

Mounting solutions for payment terminals

TECHNOLOGY MOUNTING SOLUTIONS

SpacePole Payment

In 2004, when EMV-Chip and PIN was launched in Europe, the SpacePole Payment solutions from Ergonomic Solutions became the de-facto payment standard. SpacePole was chosen for the initial pilot sites and we have subsequently provided more than 2 million payment mounting solutions. SpacePole is proven in the retail sector to last through three technology refreshes.

Features & benefits

DuraTilt®

- Patented tilt technology: Contains 13 individual parts and tested through 250,000 cycles and proven in retail installations without the need for tightening or lubrication. Comes with a five year warranty.
- Ergonomically adjustable: Range of tilt which meets all recommended ergonomic requirements for disability access and reduces the need to remove the payment terminal from the stand.

MultiGrip™

- Compatible across all three payment terminal mounting solutions.
- Available for all manufacturer payment terminals.
- All plates offer a unique system of multiple mounting positions for any environment at the point of sale.
- Key hole mounting design securely holds the terminal in place.
- Patented friction pad design ensures that the payment terminal is gripped securely, whilst it remains easy to remove for disability access.
- Two options available depending on payment mounting solution:
 - MultiGrip plate with handle (-MH)
 - MultiGrip plate with no handle (-MN)

SpacePole Light®

- Composite material with all the features that you would expect
- Ideal for contactless or traditional payment transactions
- Quality at a reduced price point
- VHB adhesive disc supplied free for easy installations where required

Rotation

- Rotates from the customer side to the cashier side.
- Intelligently designed 'anti-wobble' plastic sleeve provides smooth operation and simplifies installation in regard to rotation slot alignment.

Simple & cost effective upgrades

- A fully upgradeable and modular system, providing retention and protection of any hardware investment.
- Multiple, cost effective upgrade options.

Cable management

- Full cable management.
- Plastic grommet to ensure cable is not damaged by the metal.
- Limited head rotation to ensure cables are not stressed.

Additional design features

- Plastic flange cover to hide fixings.
- Simple and quick to install.
- Complete boxed solutions, including fixings and mounting instructions.

SpacePole DuraTilt®

Unique ergonomic design

Includes patented DuraTilt® technology (60° tilt when mounted)

Rotates 210° from customer side to cashier side

Intelligently designed anti-wobble plastic sleeve

Fully compatible with MultiGrip™ plates and SpacePole ClickSafe®

Tested through 250,000 cycles

Ensures smooth operation of terminal

Internal cable management with plastic grommets and limited head rotation to protect cables

Comes with a five year warranty

SpacePole Light®

The composite based alternative to standard SpacePole DuraTilt®

Unique ergonomic design

Simple tilt mechanism (60° tilt when mounted)

Rotates 310° from customer side to cashier side

Fully compatible with MultiGrip™ plates and SpacePole ClickSafe®

The simple and retail proven design of SpacePole Light provides quality at a reduced price point

VHB adhesive disc provided free for easy installations

Tested through 100,000 cycles

Ensures smooth operation of terminal

Internal cable management

Comes with a two year warranty

SpacePole Low Profile

Unique ergonomic design

Rotates 210° from customer side to cashier side

Fully compatible with MultiGrip™ plates and SpacePole ClickSafe®

Ensures smooth operation of terminal

Internal cable management with plastic grommets and limited head rotation to protect cables

Comes with a five year warranty

SpacePole ClickSafe®

SpacePole Inc. was the first technology mounting solutions company to be an active participating member of the PCI Security Council. As a leading supplier of payment terminal mounting solutions, we are ideally placed to provide expertise on the physical security aspects of the PCI DSS directives that underpin the standards implemented by the terminal manufacturers. All our SpacePole payment solutions are proven, robust and follow the latest PCI-DSS physical security best practice compliance directives.

To protect digital information, prevent data loss and further secure hardware, we recommend SpacePole ClickSafe, a security lock for payment terminals, mobile devices and POS hardware. ClickSafe has been specifically engineered to withstand the rigors of a potentially hostile environment and protect payment terminals and hardware from abuse and theft. ClickSafe features unique SpacePole integration and the keyless installation only requires you to click the lock in place. The assured quality and testing standards of the SpacePole ClickSafe ensures piece of mind for both the retailer and customer. The solution fits all physical security requirements and complies with PCI guidelines. ClickSafe features ease of installation and provides the unique possibility of integrating it with existing SpacePole products enhancing flexibility and security.

SpacePole Inc.

SpacePole Inc, an Ergonomic Solutions group company, is an established, leading supplier of innovative and ergonomically designed technology mounting and mobility solutions, developed in partnership with global retailers and technology suppliers. Our application areas extend across POS, Payment, Digital Signage, Self Service, Mobility, Warehousing, Distribution and Logistics.

SpacePole Inc. is a channel focused business with customers and partners across the United States and Canada. Our services include design and development for customized solutions, our influential Ergonomics consultancy, which has advised many of the major global retailers, in addition to professional security and PCI compliance within the payment industry. Our SpacePole solutions, which are installed worldwide, are proven in the field; modular, enabling cost effective upgrades and provide both physical and tamper proof protection to hardware investments.
